## A revolutionary protection

DESCRIPTION

Inside Winter is a technological concentrate of lightness suitable for braving the cold during sports activities. Always keeping a strong focus on the environment Inside Winter combines high performances and biodegradability with PrimaLoft® Bio. The use of the fabric made with PrimaLoft yarns, ensures quick drying and body thermoregulation making the garment suitable to be used from 0 °C to 20 °C. It fits perfectly in any weather condition, from strong wind to rain and of course snow. Inside Winter has been developed to offer warmth and comfort, without losing breathability. The yarn, made with PrimaLoft® Bio™ patented technology using 100% recycled fibers, makes the fabric naturally biodegradable.

INTENDED USE

CYCLING

RUNNING

FITNESS

SKIING

TREKKING

EQUITATION

CLIMBING
